Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."

### Has a Hard Task Before Him.

A clergyman of original ideas, concluding that many people go to church to show their clothes while they stay away because they cannot make a creditable sartorial exhibition, has decided to hold his Sunday morning service in the dark. The clergyman has a tendency to correct abuses spoken of, but the preacher is a cracker-jack if he succeeds in convincing the couples who come to remain to pray.

We were much pleased with the fine appearance of the Parowan School building which we visited while in Parowan last Monday. We have not had a look at it before since the walls were nearly up to the square. It is certainly a monument of the energy and progressiveness of the inhabitants of that city, and is undoubtedly the finest school building in this end of the state. It is well worthy of a visit from any one who is interested in the cause of education that has not seen it. The people of Parowan feel none the less proud of the building from the fact that the architect is one of their home boys.

President Hern and other officials of the Colorado Fuel & Iron Company are examining the property of the company in the iron fields of Iron County this week. It is doubtless due to their visit that the work at the Duncan is discontinued. They were to be at Desert Mound Thursday night.

LATER.—We learn that the officials of the Colorado Fuel & Iron Co. went back yesterday morning, and that all work on their properties has been stopped. Teams have gone out to bring in the hands, and by tonight the camp will be abandoned. What reason the company have for this course we have been unable to learn.
